As a Full Stack Developer with over a year of experience, I specialize in building scalable web and mobile applications using modern frameworks like React, Node.js, and Docker. I'm passionate about delivering high-quality code, collaborating across teams, and continuously learning to stay up-to-date with evolving technologies.

WORK EXPERIENCE

Software Engineer Ali Square

01/2024 - Present

Islamabad, Pakistan

Achievements/Tasks

- Developed a scalable web scraper for zameen.com using Node.js, Cheerio, and Sequelize, processing and storing over 50,000 real estate listings in a PostgreSQL database. Built REST API for real-time access to the data.
- Contributed to the development of "Attentive," a productivity desktop application built with Electron, enhancing task management and user productivity features.
- Developed a Chrome extension for "Attentive," connected it with the desktop app. Ensured seamless communication between the extension and the desktop app for enhanced user interaction.

Software Engineer Gitrex Technologies

01/2023 - 12/2023

Islamabad, Pakistan

Achievements/Tasks

- Developed and implemented hybrid mobile apps using React Native and Expo. Focused on reusable component development and UI enhancements, resulting in a 15% increase in user engagement.
- Integrated Firebase Cloud Functions and Firestore for backend services, and implemented Square Payments Gateway for secure transaction processing.
- Implemented Algolia search for enhanced user experience, enabling fast and accurate search functionality within the application.

Intern Remote Solutions

10/2022 - 12/2022

Islamabad, Pakistan

Achievements/Tasks

- Developed a user management application during an internship using the PERN stack (PostgreSQL, Express, React, Node.js), implementing full CRUD functionality for managing user data efficiently.

EDUCATION
